OUTDOOR LIGHTING

**HELLO,**  
NICE TO **CONNECT** WITH YOU  
WE ARE

ONE LUTEC,  
ONE **LIGHTING** WORLD

DISCOVER WHAT'S **NEW**

## INTRODUCING SOLAR HYBRID

We proudly present our latest innovation: Solar Hybrid. This cutting-edge concept combines the efficiency of solar energy with the reliability of electricity, ensuring your outdoor spaces are well-lit in all conditions.

### Efficiency Meets Reliability

At the core of Solar Hybrid is advanced solar-panel technology. These panels capture sunlight during the day to power LED lights at night. What sets Solar Hybrid apart is its seamless transition to electricity when sunlight is insufficient, guaranteeing consistent illumination, regardless of the weather.

### Green Lighting Solutions

Solar Hybrid exemplifies our commitment to sustainability. By harnessing solar power, these lights reduce carbon footprints and energy costs, offering an eco-friendly lighting solution.

### Uninterrupted Lighting

Solar Hybrid provides uninterrupted lighting, enhancing the aesthetics of your garden, lighting up pathways, and ensuring safety in outdoor spaces. Experience the Solar Hybrid advantage today!

## CREATING A CONVENIENCE LIGHT AMBIENCE

LUTEC has a variety of portable lights, nomadic and all weatherproof. Recently some new attractive table lights were launched in the market.

### **Cordless Portable LED Outdoor Lights**

No more hassle with wiring, you can put the LUTEC table and floor lamps wherever you want on your terrace, garden table and in your outdoor living room.

### **Versatile choice in design and light effects**

Elegant, compact, bohemian, natural, colorful designs, Resulting in a warm white cozy light, creating gentle and unique light patterns or filling the whole terrace with a charming glow.

### **Convenient, comfortable and personal**

We offer a variety of models reflecting everybody's own criteria. Solar models, 100% green , renewable energy, Models enhanced with LUTEC connect dynamic CCT & RGB color technology. Battery charged models all night long.

## I'M WALKING ON SUN-SHYNE

With the brand new and attractive SHYNE series, you will create the perfect light atmosphere around your home, on your terrace and in your garden.

### Contemporary and unconventional

The SHYNE series boosts a present-day look and can match to more modern style homes and likewise fit in a somewhat traditional outdoor surrounding.

### Looking for special light effects

The combination of the diffuser and ribbed housing results in a magnificent light and shadow effect. You choose in between a glass diffuser for cozy warm light, or opal diffuser for a homogenous light beam.

### LUTEC retrofit bulbs

To complete the SHYNE luminaires, LUTEC offers retrofit bulbs as service range. These bulbs come with the LUTEC connect feature and are available in filament and RGB version.

## COMPACT & AFFORDABLE DESIGNS

LUTEC launches this season a number of compact and affordable LED wall and ceiling lights. They come with excellent lighting features and are fully weatherproof for outdoor use.

### Evergreen modern design revisited.

ZEBRA, KITE, TUBON, STELA, GEMINI in a nowadays and tiny jacket. Small doesn't mean weak. Excellent light output in combination with robust weatherproof materials. Versatile range with integrated LED or retrofit solutions

### Compact coach lanterns

SPIRE, FIA & ZAGO traditional lanterns generating a cozy atmosphere around cottage and vintage style homes. You can apply the newest decorative filament bulbs, these lamps are now available in all forms & shades. A warm amber glow will turn your garden in a cozy and charming surrounding.

### Multiple installation

These models are very convenient to apply in multiple luminaires installations. Creating a repeating light pattern on your outdoor and garden walls.

## finally solar lighting becoming smart!

**solar**

**connected**

- ☑ Energy Saving
- ☑ Easy installation  
no wires needed
- ☑ Higher lumen output
- ☑ Long life solar battery

- ☑ Easy to install,  
connect and control
- ☑ Fast & Stable bluetooth  
connection
- ☑ Lights are connected to each  
other via Bluetooth Mesh
- ☑ Range up to 50m
- ☑ Adjustable light settings
- ☑ Control by smart phone  
or motion sensor

### Control and adjust your SOLAR lights

Switch your lights on or off,  
dim your lights, change the  
temperature or the color  
according to your mood.

### High tech Low energy

Easy to control solar lights  
for better efficiency  
and comfort.

### Create Groups for more convenience

Control all your lights at once!  
Easy and fast set up, you can  
add or delete any light from  
the group.

### Manage the battery life

Check the battery level at any  
time. At low battery levels,  
switch easily from ON to PIR  
or OFF mode.

## Control and adjust your SOLAR lights

With the LUTEC connect App you can switch your lights On/Off, dim or change the color temperature easily.

The led color feature available in either the bollard or spike, allows you to create your own personalised garden atmosphere, designing your outdoor space in style with colors or dedicated scenes.

## Create Groups for more convenience

From first detection at your driveway or path create a group which allows all lights to illuminate

Create a group with the Solar connect light through the APP.  
Thanks to Bluetooth MESH the lights can be easily linked and work simultaneously.

## High tech Low energy

Within the application you can select OFF-AUTO-ON mode. Selecting AUTO mode activates the movement sensor, which enables the light to come on only when someone is passing and increases battery life from a single charge.

From the sensor menu you can :

- Activate the detection from near to the sensor to further away
- Set Twilight mode from dusk to dawn
- Choose light reaction time from 10 seconds to 3 minutes
- Constant light : Additional option to set your light output at 20% and also duration from 2 to 8 hours.

## Manage the battery life

This feature enables you to quickly check the battery level.  
You can decide to increase or decrease the brightness or switch to AUTO mode or even Off, allowing full user control.

Visit our dedicated website which supports and inspires our consumers with their experience

# FRAN

## integrated panel

FRAN is a cordless, solar wall light in a modern and minimalist design. It is charged by sunlight during the day, and turns on automatically when detecting motion. The light is perfect for illuminating your main entrance, driveway or other areas with a lot of traffic. Easy installation with no cables needed. Thanks to the connected module you can light your outdoor space completely to your personal taste via the free app.

# FADI

## integrated panel

Solar connected wall light FADI has a sleek and modern look. The wall lamp has a convenient sensor which will automatically turn on when it gets dark. Can be used as fence lighting or facade lighting. Thanks to the connected module you can light your outdoor space completely to your personal taste via the free app. During the day the lamp will charge itself by means of the solar panel, so that in the evening and at night you can enjoy the cozy warm white light in your garden.

Item nr:9759808000

# TRY

## integrated panel

This outdoor SOLAR with integrated solar panels combines a simple functional design with a high user-friendliness. This TRY wall light works without a power connection: you can easily install it in your garden or as mood lighting next to your front door. Thanks to the built-in motion sensor, it lights up automatically. An extra feature of this new design is the dim switch.

# DOBLO

## integrated panel

Despite its modest shape, the LED outdoor wall light DOBLO appears to be extremely practical. A solar panel on the luminaire generates electricity from sunlight, which is stored in a rechargeable battery. You can choose between four settings. The LEDs are installed behind the rectangular diffuser and emit universal white light in all directions.

## integrated panel

Classic 6 side lantern powered with Solar energy. The almost invisible Solar panel at the roof of the lantern has a large capacity with an autonomy of more than 10 hours during night time. Comes with 3 retrofit filament bulbs, creating a warm & gentle light. The die-cast aluminium post can be mounted on a paved surface thanks to the included metal mounting bracket. For unpaved surfaces, you can use the special spike, available as an accessory.

# LUTEC

sensor

## security for your **comfort**

LUTEC presents the Sensor concept offering a complete range of Security Sensor Lights.

The range is featuring, besides the powerful flood lights with one or two heads, a number of very elegant designs which make a perfect match with the architecture of your house.

## Passive infrared (PIR) motion sensor

### How does it work?

A PIR sensor detects changes in the amount of infrared radiation and converts this changes into a switch-on signal.

When a person makes a movement within the detection reach, the sensor will detect a difference in infrared radiation in between the person's body and the environment.

### Comfortable detection area

The detection area is a combination of the reach in distance and angle. An adjustable sensor can be tilted and/or turned and gives you full freedom.

### Your personal settings

#### Time setting

As from the moment the sensor detects a movement the light stay on from 10 seconds upon 8 minutes according your preference.

#### Twilight setting

The environment brightness can be adjusted according your selection from night (10 lux) to daylight. In this way the light will switch into the "ON" position according the selected outside light level and not during the day.

#### Distance setting

You can limit the detection distance in accordance with the desired detection area. In this way you can avoid a movement detection outside your private grounds.

### For your convenience

#### Dusk to dawn

Automatic light on switching as soon it's dark outside

#### Ambient Light

Light stays on all night long in a gentle ambient light, after movement detection the light switches on a powerful light beam.

#### Double sensor

Assures you a full detection not only frontal but also underneath the luminaire close to the wall.

#### Test mode

You can define the perfect detection area during installation in daylight situation

### How to choose?

Check in a few steps which InMotion Security Sensor Light suits the best for your home situation.

**LUTEC**  
sensor

### BASED ON SENSOR DETECTION REACH

### BASED ON LUMINAIRE CHARACTERISTICS

**LUTEC**  
connect

EASY  
TO CONNECT

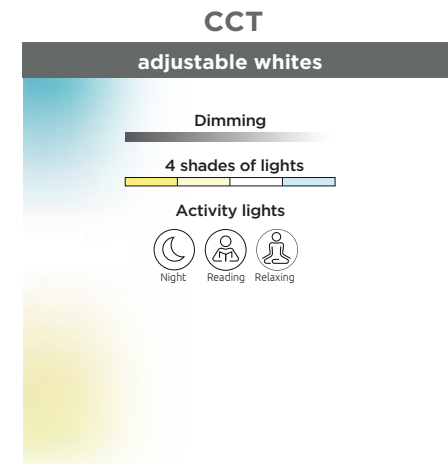

Control & Adjust your lights  
from your bedroom to your garden

control your light like magic

LUTEC has a great range of connected lights. You immediately set the mood in and around your home with the magic of coloured light. Once you have connected your lights to your mobile phone, you can play with light like it's a piece of cake.

Vary the intensity  
and white temperatures

By varying the white temperature, you can go from a soft and pleasant warm white for relaxing or enjoying an evening with friends, to a cooler white simulating daylight and providing more powerful lighting.

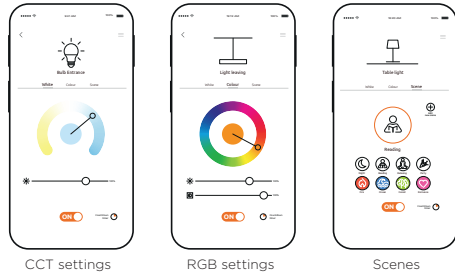

Light in color

You can create a festive atmosphere, transform your terrace into a cozy and pleasant space, enhance your garden decoration or simply choose your favorite scene. A color and mood for any time of day or night.

## the LUTEC connect app

**For a full smart lighting experience**

## the smart remote control

**With Double Integrated function**

Simplicity is our promise, as nothing beats the convenience of remote control  
Full functionality without Internet access  
No Router & No Wifi required

**Point & Play**  
in the room  
**Infra Red individual control**

## the 2 in 1 smart way

**For an easy control**

2 in 1 function

A standard wall switch will allow the luminaire to go from a warm light (2700k) with an additional click to a more intense daylight (4000k).

## Control every light

Inside or outside the house

**Bluetooth Group control**

# why Bluetooth Mesh ?

Full scalability towards all your indoor and outdoor living spaces

Bluetooth technology, the global standard for wireless connectivity, now supports mesh networking

Easy & stable connection  
Long range indoor & outdoor  
Connect up to 100 devices

# further on the experience

Add the WiFi LUTEC Connect Access Box to the Bluetooth mesh eco-system.  
Allows the connection of the Bluetooth mesh ecosystem with your Wifi router at home

Hey Google, turn on the light!

Alexa, change the light in blue!

# introducing our company

## **50 years of experience**

The origins of a lighting company.

Originally set up as a national aluminum die-cast factory, we gained our first experience of outdoor lighting by producing bulkhead lights & classical garden lanterns. The first export shipment was made in 1996. The new factory in Yuyao became operational in 2001, concentrating on modern garden and professional lighting.

The LUTEC brand was launched in 2010, focusing on architectural LED lighting and the introduction of solar energy products. The success of the company resulted in the opening of a second production facility in 2012, fully devoted to future developments in design and new technologies.

Nowadays, Lighting is both essential and magic.

The challenge of the lighting market is to create products which are a balance between the shape, impact and attractiveness. The LED revolution has completely changed the game, giving many new opportunities. Added to this we must not only continue to offer the latest technical innovations but also anticipate and provoke them, especially with solar energy and smart lighting controls.

We have expanded our international network and organisation: with new central warehouses in Belgium and China, establishing partners in many new countries allowing us to continue building our corporate identity and providing our partners with unique product support and marketing tools.

# welcome to the lutec center

## **connected by lighting**

The future is always here.

Today we are all surrounded by the interactive and connected world. For many reasons it is evident that the lighting market must also embrace this new internet age. The need of control and adjustments by means of an app or remote control has become a must have feature.

LUTEC offers multiple programmable solutions through the LUTEC connect app, for the Outdoor, Solar and Camera smart ranges.

Recently new developments in the SOLAR light domain have been introduced : Solar Hybrid & Solar Dynamic.

This is where the magic is born.

The LUTEC centre located our HQ in Yuyao is an international meeting venue where new concepts, innovation & strategies are studied, created, and shared with our partners. Recently, we've fully updated our showroom featuring attractive presentation of our new developments and actual ranges. You can obtain a sneak preview by scanning the QR code.

We provide an expert platform in design, sales and services. Staying close to our customers, allows the right design solutions to be found for their consumers.

Our team is trained to be proactive and reactive. The key to realise a win-win product, is to explore all the possibilities, look outside the box to find the best solution.

# design & engineering

## **design, engineering & manufacturing, all interactive.**

One of the main decisions we have taken in the LUTEC organisation is to break down the walls between of each department to improve product strategy.

This brings a culture of flowing communication between the services where everybody has a positive role to play in all projects.

We all know development is complex with many obstacles to overcome. However, working together helps our team to aim for the perfect solution as smoothly as possible. Knowledge is shared at all levels. Creativity, marketing, engineering, production, and sales are seen as one.

# warehousing & transport

## **global logistic footprint assuring availability & proximity.**

Unlike many other manufacturers in this sector, LUTEC keeps significant levels of finished goods in the central warehouses in Europe and China. Our aim is to reduce the lead time wherever possible.

The European Central Warehouse is now fully operational for more than 5 years, resulting in a proven logistic performance with a service level well over 93%. Overtime the ECW portfolio has increased up to 350 sku's with permanent availability.

Thanks to this warehouse located in Belgium, centrally situated in Europe, with an average lead time for most shipments is less than 7 days, the LUTEC products are always within reach.

We offer different transport options: direct shipment, cross docking, drop shipment or pick-up. this in close co-operation with each local LUTEC partner.

Recently we've arranged an appropriate set-up to assure different value adding trade marketing services in the ECW.

# LUTEC quality

As a global supplier, our products are fully compliant with all relevant technical & quality requirements of the different regions in the world.

All LUTEC LED products benefit from a 5-years functional warranty. For the SOLAR range we apply a standard 2-years operational warranty.

LUTEC Warranty Conditions, please check on [www.lutec.com/warranty](http://www.lutec.com/warranty)

## Integrated LED Light-engines

The LUTEC in-house engineering/production departments only use primary component suppliers, constantly improving the performance of the total LED product, resulting in a higher lumen/watt ratio.

**Low Energy Cost:** LUTEC products offer at least an 80% saving compared to traditional sources

**Long Lifetime:** up to 20.000 hours

LUTEC LED-light engines featuring the most appropriate characteristics in order to give the best result for all your outdoor applications.

- Lumen Maintenance: 100% LM-80 test report
- Color deviation: 100% under 5-step MacAdam ellipse

The LED driver is the heart of the LED module and is the main influencer of the life-time. LUTEC develops these drivers to the specification of the product for best performance. The production of the SMD's used in the LUTEC-drivers is done in-house in our approved SMT assembly lines. All drivers are compliant to all relevant standard and regulations.

# Energy efficient LED lighting continuous improvement

LUTEC makes a continuous effort to improve the Energy Efficiency of their luminaires:

- Development of Solar ranges with zero energy consumption
- Introduction of retrofit items, suitable for Energy Class A LED light bulbs.
- Pushing the Energy Efficiency classes of the total portfolio from F-E-D to C-B-A level step by step.

## LUTEC Outdoor Portfolio

All LUTEC outdoor luminaires, within the scope of the updated EU-regulation 2021 are fully compliant. This results in the attribution of an updated classification with Energy Efficiency Classes in between A & G.

## "Containing Products" Classification

The complete range of LUTEC luminaires has been classified as Containing Products with a removable and (non) replaceable LED-module. As a result the new Energy Efficiency Class is related to the LED-Module and not to the complete luminaire as such.

## LED Module - Energy Efficiency Class

In order to make it clear that the test results are related to the LED Module, a specific EEL label was created with a "M" (Module) indication behind the item nr.

This EEL label can't be shown on the packaging of the complete Outdoor Luminaire. In the Instruction Manual we indicated the Energy Class of the concerned light Source (= LED Module)

## EPREL Database

Consumers can access the database by scanning the QR code featured on the new energy labels. The EPREL database offers detailed information of all registered LUTEC products.

## Available information on [www.lutec.com](http://www.lutec.com)

On our LUTEC website all related information is available for consultation and easy download of specific documents:

- Energy Label
- Instruction Manual
- Product Information sheet (with test results)
- Light Source Remove instructions

We believe outdoor lighting is a unique category with a vast number of specific requirements and challenges. Our aim is to provide creative solutions, innovative designs using quality materials and products. Our categories include architectural designs with creative forms of illumination. Functional products, combining tough materials with stylish appeal, decorative products ranging from classic to ultra-modern shapes. Solar lighting that incorporates the latest trends alongside unique technologies. All this to support the ever changing climates around the world.

## Our commitments to everyday actions

### Durable Products

LUTEC outdoor luminaires are made from durable materials such as high density die-cast aluminium and synthetic glass, fully weatherproof, to **last for many years.**

### Zero-Plastic Packaging

LUTEC has started the complete **ban of plastic bags** in their consumer packaging as from mid 2021.

### Responsible Production & Operations

The roofs of LUTEC production facilities are equipped with high efficiency solar panels (10 000m<sup>2</sup>) resulting in a green energy saving : **50% of our annual energy consumption.**

### Sustainable Functions & Features

**LED Lights** : 80% less energy vs traditional light sources

**SENSOR Lights** : consume energy only when you need light

**CONNECTED Lights** : smart control of the lights can save up to 90%

### SOLAR Lights : 100 % green energy

Focus on development of efficient and smart Solar luminaires made with panels :

- Without any rare earth element
  - Can be recycled and reused up to 4 times
- Last year, more than 400 000 homes were equipped with a new LUTEC Solar light.

# materials & finishes

LUTEC exterior luminaires are produced using high quality materials and finishes with excellent weather protection properties as well as mechanical strength to ensure a long lifetime.

Heavy duty die-cast Aluminum (ADC 12) with a thickness of 2mm, is in most cases the preferred material. The LUTEC in-house fully automatic powder-coating & water painting installation provides excellent protection against corrosion.

Different kind of durable synthetics, depending on the application and form factors. For the fixtures: ABS, a strong and light-weighted material, can be used under low and high outdoor temperatures. For the opal or transparent diffusers: the impact proof and very resistant PC (polycarbonate) is used. Also clear glass, tempered glass and opal or clear PMMA (plexi-glass) are common in our designs.

LUTEC benefits from an in-house tooling workshop for both aluminum and synthetic components.

## IP rating table

The LUTEC Outdoor fixture comply to the International standards concerning Ingress Protection. All articles have a minimum IP44 rate. For some specific applications (Ex. in ground recessed spots) the protection rate goes up to IP67.

	Protection against solids		Protection against liquids
0	Not Protected	0	Not Protected
1	Protected against Solid Objects greater than 50mm	1	Protected against Dripping Water
2	Protected against Solid Objects greater than 12mm	2	Protected against Dripping Water when tilted to 15°
3	Protected against Solid Objects greater than 2.5mm	3	Protected against Spraying Water
4	Protected against Solid Objects greater than 1mm	4	Protected against Splashing Water
5	Dust Protected	5	Protected against Water Jets
6	Dust Tight	6	Protected against Heavy Seas
		7	Protected against the effects of Immersion
		8	Protected against Submersion

# mounting, installation & maintenance

## Instruction Manual

LUTEC pays a lot of attention to a user friendly and effective yet simple instructions, we strive to find time saving methods of installation using uniquely designed interfaces where possible. Every LUTEC Outdoor fixture has a clear instruction manual in the unit box and this manual can also be downloaded from our website. Clear explanations in 16 European languages.

## Service network

Our service network is available on global level through our LUTEC Partners. Contact details: [www.lutec.com/services/global-network](http://www.lutec.com/services/global-network)

# LUTEC brand identity

## packaging

The LUTEC corporate identity has been invigorated in line with our evolving brand values. New trade support tools and POSs have been created to support our products and our customers providing an integrated selling solution, all of which adds value and distinguishes the LUTEC offer from our competitors.

LUTEC applies on regular base graphic updates on the packaging of our complete portfolio, to improve the overall consumer perception and understanding. We believe the new look of the new packaging is fresh, vivid and in tune with our style of products. The product is always the hero with an inspiring photography. The LUTEC logo is visible from all sides of the packaging, together with the emblematic green banner this will further improve the brand recognition.

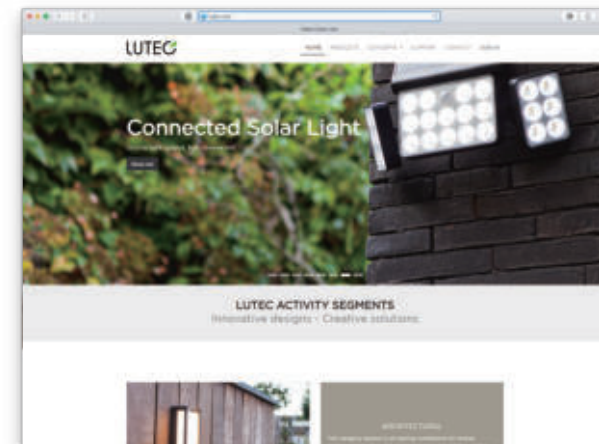

The LUTEC SOLAR and LUTEC SECURITY unit-box graphics were launched in the market for the LUTEC connect Solar and LUTEC connect Camera ranges. By means of a distinctive color indication, Orange for Solar & Red for Security, the consumers will easily recognize the difference with the standard LUTEC outdoor ranges.

# LUTEC brand identity

## rich content

We're constantly creating new communication materials to support and improve the presentation of LUTEC products, facilitating an easy consumer selection of one of the LUTEC products.

All support materials are accessible through our refreshed website [www.lutec.com](http://www.lutec.com). Where you can find the LUTEC database with all kind of "rich content": Product photos, Lifestyle photo's, Tutorials, Inspirational video's, Flash-Intro video's, Unpacking experiences, and many more.
